

Real conservatives

1) Reducing Taxes on Families and Work

The Green Party will introduce income splitting and increase personal tax exemptions to allow families more choice over their spending. Our economic plan keeps us out of deficits by offsetting these cuts with levies on industrial carbon emissions, toxic chemicals, and petroleum products.

2) Cutting Wasteful Spending

The Green Party will eliminate subsidies to oil producers, advertisers who target children, the inhumane seal hunt, and automotive manufacturers who produce inefficient vehicles.

3) Reforming Government

The Green Party will replace our dysfunctional first-past-the-post electoral system with a fair voting system that will encourage parties to cooperate and ensure that every vote counts.

4) Tackling Organized Crime

The Green Party will repeal the prohibition of cannabis, diverting \$6,000,000,000 a year in profits away from organized crime. Our crime plan keeps teenagers out of gangs by using "sin taxes" to pay for after school programs and expands drug treatment spots to help people deal with addictions.

5) Supporting Arts and Culture

The Green Party will ensure that Canadians have access to quality libraries, museums, parks. We will invest in the arts and new media communities.

A Positive Campaign

Instead of attacking our opponents or relying on scare tactics to win this election, we are offering Canadians intelligent solutions to the growing economic, environmental, and social concerns facing Canada and the world.

Vancouver Quadra needs to elect someone with a vision who will cooperate with other parties within a minority government. Someone who can put partisan difference aside to work for local constituents to address the challenges facing our planet.

About Dan Grice, your Candidate

Dan Grice is an internet technology specialist and an electoral reform organizer. He holds a bachelor of arts degree from UBC.

In the spring, Grice won the endorsement of the influential Georgia Straight:

"A vote for Grice will announce to the country that the first-past-the-post system is an anachronism that undermines democracy and public participation."

- March 13, 2008

Every Vote Helps

The Green Party receives \$1.92 a year from Elections Canada per vote.
